A suggestion has been made, that in the absence of the members of the Hawaiian Band on vacation, a public concert or two be given at Emma Square by the St. Louis College Band. Could not this be arranged? If so, it is certain to give much pleasure to the public.

Daily Advertiser 50c. per month!

(From the Hilo Record Dec. 2d.)

A sudden gloom was cast over our little community, when by telephone we heard from Laupahoehoe, that Mrs. Colville had passed from earth at her residence in Paia, Maui; and that her remains were then on the way here for interment in our little cemetery where her mother was laid some time since. The funeral was held in Foreign Church on Friday last and was attended by a very large number of friends.

Mrs. Jennie Colville was born in Wappingill Falls, New York, and was one of a family of eight children, five of whom are now living. Her maiden name was Jennie Deacon. She has two brothers now in this country and one sister, Mrs. C. C. Kennedy of Hilo, Hawaii.

Miss Deacon arrived in this country in August, 1881, and was married to Mr. Colville at Waiakae, Hilo, in March, 1883. They resided in this district until Mr. Colville received the position of manager at Paia, where they removed December, 1888, and where Mrs. Colville died November 27, 1890.

While a resident of Hilo Mrs. Colville endeared herself by her kindness and lovely character to all our community; she had not an enemy in the world; hers was one of those sweet, bright characters that always make friends, and never enemies.

Mr. Eddy Hitchcock was thrown from his horse while riding through the woods on the Volcano road and his shoulder was dislocated. It was put in place on arriving in town by Mr. W. E. Scott, and he has now recovered from the injury.

On Monday last a mortgage sale of land in Puna brought \$10.50 per acre for a six acre lot.

The Tax Appeal Board for Hilo commenced its sitting yesterday. Mr. Hatch, assisted by Hitchcock and Hitchcock, appear for the plantations.

Our southerly weather has fairly set in, dry and hot. Dust all around; streams drying up; water wanted and nothing being done about our water works.

Kerosene gone up so high it can hardly be reached. Tallow candles coming into use. No light on our streets—patience for Hilo; go ahead Honolulu.

The telephone to the Volcano is working well, but those putting it up, should have put the line on to better posts. As it is now, the present posts will not last three or four years. When the line is connected from Hilo to the Volcano, it will put both Hilo and Kau in less than weekly communication with Honolulu, by way of the Hall and Kinan. We hope this end of the line will be started before long.

The Volcano was active on Sunday night, but it is continually changing its appearance. Halemauau is rapidly building up, and now the southwestern part of the crater is above the level of the inner banks of 1859. Mr. Maby has rebuilt the steam bath house that was blown down in the early part of the year. A nice dressing room has been added and two steam boxes put in and ready for use. We cheerfully recommend to all our readers to go and try them, as it is a luxury we cannot get elsewhere on the islands.

Wednesday's Game.

Chan. Wilder's aggregation of ball players, "The All Honolulu," will meet the Californias again Wednesday. Willie Lucas, it is expected, will pitch. Leveque will go in the box for the Californias. "The All Honolulu" have made a big impression for the manner in which they played Saturday, and their admirers expect better work Wednesday.

Every American drummer doing business in Victoria, B. C., is required to pay a license of \$50. This only allows him to sell goods by sample until January 1st, when every foreign salesman must pay a fee of \$100 for the privilege.

A Large Audience to Witness "Editha's Burglar" and "Little Lord Fauntleroy."

There was a brilliant audience at the Opera House Saturday evening to witness the performance of "Editha's Burglar," and the second and third acts of "Little Lord Fauntleroy." The Hawaiian string orchestra discoursed appropriate music during the intervals, under direction of Mr. Oscar Herold, who also presided at the piano.

The programme opened with "Editha's Burglar," a very pretty little play, in which Olive Berkley gave a most delightful charm to the character of Editha, the minut being particularly pleasing to the audience. Mr. W. H. Hoogs was excellent as Mr. Sefton, an editor. He had evidently given the part diligent study. His singing of the song, "Listen, Darling," was very effective, some fine tenor tones being heard. Benton the burglar was personated by Mr. W. L. Roberts, and it was, indeed, a very clever performance, the audience showing its appreciation by frequent applause.

The second and third acts of "Little Lord Fauntleroy" comprised the second part of the programme. Of course the center of attraction was Miss Olive Berkley as Cedric, Little Lord Fauntleroy. She played the part with wonderful skill and naturalness, and won many outbursts of genuine applause. Mrs. Berkley as Minna, an adventuress, captured the audience. A finer piece of acting has not been seen on our stage in a long time. She cared for nothing nor nobody.

Mr. W. L. Roberts took the part of the old Earl, and his acting throughout was most praiseworthy. He deserves the utmost credit for his strong acting, for such it was. His make-up was excellent. Miss Ward in the part of Mrs. Errol was satisfactory, so was Dr. Nichols as Higgins the farmer. Chas. T. Wilder's make-up as Hobbs the grocer was intensely amusing, and he carried the part along with much skill. J. M. Sims as Havasham the lawyer and H. Cockrill as Dick a bootblack and Thomas a butler, played their parts to satisfaction, the latter being exceedingly funny. Much more could be said about the presentation of this play, if space would allow. One of the chief features was the magnificent manner in which the piece was put on the stage as regards the furniture. It is to be hoped the company will give another performance.

Kohala Seminary.

The pupils of Kohala Seminary, with their principal, Miss M. F. Whitteer, teachers, parents and friends, celebrated Independence Day by a ride to Polulu Gulch. The day was delightful; and the two hundred horses and riders were a pretty sight winding their way slowly down the steep precipice into the valley, which is lovely, with high walls to the east and west, rice fields on the south and the bright waters of the Pacific on the south, where many of the pupils enjoyed a frolic with the waves, or a stroll along the beach, with appetites sharpened for the "luau" prepared by their parents or friends. It consisted of pig poi, fish, fowl, etc., also an abundance of bread and cake made by the girls of the school, instructed by their teacher, Miss M. L. O. Gorten. More than 200 people partook of the feast. Music was furnished by the "Hilo Boys' Band," and singing by the pupils.

After the feast, the horses were again mounted, and after a ride along the beach and to the various points of interest in the valley the merry party slowly wended their way up the gulch and then enjoyed a canter of eight miles homeward, delighted with this day's pleasure, which will long be remembered by all present as a very delightful day spent in one of the most romantic valleys of the beautiful island of Hawaii.

Football at Oahu College Grounds.

The game of football Saturday afternoon between the Razzledazzle and Punahou teams, though only a special or practice game, attracted a large number of people. The Punahou team was in excellent practice, while the Razzledazzles, though slightly heavier men, had had but little practice and none at all together as a team. The more extensive practice of the one and the greater weight of the other team, however, nearly balanced each other, for the game was well and hotly contested throughout. The only points scored were two goals from touchdowns by the Punahou team. One of these was made without opposition through a supposed misunderstanding of the Razzledazzles, and is protested by them as being contrary to rules; the other after the Razzledazzles had been crippled by the loss of their best player and captain, occasioned by a sprain of the muscles about the knee. The teams were pretty evenly matched, and the game intensely interesting throughout. Both teams are to be congratulated upon the good showing they made.

It is with deep regret we announce the death of the Hon. W. L. Green which took place Sunday at 1:30 p. m. in his residence on King street. He had long been ailing and was obliged two years ago to resign the post he then held in the Cabinet as Minister of Finance.

William Lowthian Green was born in 1818 in London, and came to this country from South America in 1850 and was soon actively engaged in mercantile pursuits and became a partner in the firm of Janion, Green & Co. To the foresight and energy of Mr. Green the establishment of the Honolulu Iron Works is largely owing. Twice during temporary vacancies in the post of British Commissioner Mr. Green acted in that capacity, and three times has occupied a seat in the Cabinet, the last time being on the occasion of the overthrow of the Gibson regime in 1887 when the King entrusted to Mr. Green the formation of a new Ministry.

Throughout a busy life Mr. Green always found time for the cultivation of his favorite science, geology, and his "Vestiges of a Molten Globe" show how deeply he had studied the laws which govern the cooling of masses of heated inorganic matter. As recently as July last he published a "Notice of Prof. Jas. D. Dana's Characteristics of Volcanoes." Mr. Green leaves a widow, a daughter of the late Robt. McKibbin, M. D., and one daughter, Mrs. J. N. S. Williams of this city.

Mr. Green was a Grand Officer of the Royal Order of Kalakaua and Knight Commander of the Crown of Hawaii.

A Treat for the Windward.

Miss Olive Berkley, supported by her mother, Miss Louise M. Berkley, and a carefully selected company, have decided to make a tour of the windward islands, playing at Wailuku, Paia and thence to Hilo. Miss Olive will impersonate the little lord of Mrs. Frances Hodgson Burnett's creation, Fauntleroy. The people of Wailuku and Hilo would do well to avail themselves of the opportunity thus furnished of witnessing a truly clever and charming performance. The management will be vested in that popular young gentleman, Mr. J. M. Sims, who will pilot the party during the tour.

Two Alarms of Fire.

On Saturday evening about 7:30 o'clock an alarm of fire was rung. It was for a blaze in a room occupied by Mr. Reynolds, over the Portuguese tailor's shop adjoining King Bros.' store. The fire was discovered before it gained much headway. A bed was burned somewhat, also a table and some toys. Damage about \$75. No insurance. There was every indication that the fire was the work of an incendiary.

At 11:45 o'clock the same evening a fire was discovered between two packing cases in rear of a Chinese store, corner of Maunakea street, near the Fish Market. It was put out quickly. No danger. How it started is a mystery.

A New Cooking Stove!

Messrs. KING BROS., have been appointed Agents for the

JEWEL GRAND GASOLINE COOKING STOVES

Which they are now offering for sale.

The following are a few of the merits of the Stove:

It requires no Chimney, there being no smoke to carry off.

It does not blacken the cooking utensils.

By the simple turning of a screw and the application of a match the Stove is ready for use.

Water can be boiled in five minutes from the time the fire is started.

Any kind of cooking can be done on this Stove, that can be done on any other.

The expense of fuel is reduced to between ten and fifteen cents per day, and in some cases to much less.

No cutting of wood or bother about coal with this Stove.

The fuel comes in cases like kerosene oil, and a year's supply can be easily stored in a very small space.

The best refined Gasoline is the fuel used, with which there is no more danger than with kerosene oil.

For people who do their own cooking this Stove can't be beaten, and we venture to say that after they have gotten over the prejudice of the use of Gasoline, that they will not give the Stove up for a wood and coal stove under any consideration.

There are at present six of these Stoves in successful operation on the island of Kauai and one in Honolulu, the owners of which will gladly furnish information to those wishing to know more about the Stove.
